- That is my personal pc e-store web-application. (Not publishing now. You can find that project on my GitHub account)

Softdev.az

- This project is my dream, because i want to make a web application which it's have lessons of programming languages. It's will be must biggest web app of Azerbaijan for learn programming. (You can find that project on my GitHub account)

Alver.az

- That is my biggest personal project of e-store web-application. (Not publishing now. You can find that project on my GitHub account)

ABOUT ME

Who is Vugar?

Vugar is persone which love learning new things and create new things. He never boring working and learning. He has a vision great and powerful. He love programming because, he believe programming is teaching life. He can adapt to any environment.

Software history?

I met the software for the first time in 2018. Since then, I have constantly improved myself. Although I studied another department at the university, I chose this department as my own. I learned the software from various courses and by myself.

Business life

I adapt quickly to my job in business life. I have features which quick problem solving, analytical thinking and learning from mistakes. Working with a group or alone doesn't matter to me. I work ten times more efficiently because I love my job
